360°carbon Calculator Questions

Start

This section is entirely optional and will not affect your carbon footprint. It is used to provide a couple of performance indicators at the end of your journey through the calculator.

For the footprint year, how was your church used in a typical WEEK?

Sundays and Special Services

Number of people at Sunday services	
For how long is the building occupied?	Hours
How many Sunday services a year?	
Number of people at special services	
For how long is the building occupied?	Hours
How many special services a year?	

Weekdays

If your church building is used at all during the week:

How many people use the building?	
How many different activities are there?	
How long, on average, do activities last?	Hours
How many weeks a year do activities run?	

Staff

If there are any staff (including clergy) who work in the church building during the week:

Number of staff	
Total time staff are in the church each week	Hours
How many weeks a year do staff work?	

Notes

Who are you including in your footprint?

Energy

If you have more than one building that you need to record energy information for, please duplicate the two tables below.

For the footprint YEAR, what was your church's annual energy usage for each building?

	Amount	**Unit**	**Renewables %**
Electricity		kWh	

Gas			
Biomass			
Heating Oil			
LPG (Propane/Butane)			

If your building has solar panels, enter how much energy they generated, and how much was exported to the grid:

	Amount (kWh)
Generated	
Exported	

Travel

For the footprint year, how many miles did members of the congregation and staff travel for church activities in a typical MONTH?

	Congregation	**Staff**
Diesel car		
Petrol car		
Hybrid car		
Electric car		
Motorbike		
Public Transport		
Bicycle		
On foot		

Flying

For the footprint YEAR, what flights were taken by staff in your church?

Departure Airport	Arrival Airport	Return or Single	Class	Number of passengers	Date

The sections below are not included in annual reporting for the Methodist Church, you may however fill them in if you intend to complete other footprints during the year.

Food

Drinks and snacks – for the footprint year, how many of the following were served in a typical MONTH?

Cups of tea	
Cups of coffee	
Glasses of squash	
Glasses of fruit juice	
Packets of biscuits	
Pastries, or slices of cake	

Meals – for the footprint year, how many meals were made and served at Sunday or weekday activities in a typical MONTH?

High Meat (more than 100g)	
Medium meat (50 to 100g)	
Low meat (less than 50g)	
Fish	
Vegetarian	
Vegan	

Expenditure

For the footprint YEAR, how much did your church spend in the following categories?

Building and grounds	£	IT equipment and electronics	£
Telephone and internet services	£	Web hosting	£
Postage	£	Professional Printing	£
Magazines and books	£	Stationery	£
Furniture	£	Hotels and similar accommodation	£
Paid event catering	£	Accountancy and auditing	£
Insurance	£	Rentals and leasing	£
Legal services	£	Other professional services	£
Courses and training	£		
If you only have information about costs associated with Waste & Water enter them here rather than in the next section			
Water Supply	£	Waste Water (Sewerage)	£
Waste Disposal	£		

Waste

For the footprint year, where did your church's waste go in a typical MONTH?

	Amount	**Container (see list below)**
Recycled (Dry waste)		
Food (separated and composted)		
Other waste to landfill		

- K = kg
- B = Bin bag (approx. 8kg)"
- W1 = "120l wheelie bin (approx. 20kg)"
- W2 = "240l wheelie bin (approx. 32kg)"
- W3 = "360l wheelie bin (approx. 52kg)"
- W4 = "660l wheelie bin (approx. 88kg)"
- W5 = "770l wheelie bin (approx. 108kg)"
- W6 = "1,100l wheelie bin (approx. 140kg)"

For the footprint YEAR, what was your church's water usage for?

	Amount	**Unit**
Water supplied to property		m^3 or litres
Waste water (Sewerage)		m^3 or litres
