

Team Daily Briefings

Throughout the 3Generate weekend we gather at various times as the 3Generate Delivery Team.

We will meet of a morning at 8am in the Town Hall for 20 minutes, sharing in what has happened the day before and then spending time in prayer for the day ahead.

At the end of the day we will come back together at 11:30pm in the Town Hall for a short debrief and prayers (approximately 20 minutes).

In addition to the collective Delivery Team gatherings, we encourage all teams to have a morning briefing and evening debrief. As well as keeping in touch and connected as a team throughout the weekend.

Your team leader will share your team specific risk assessment with you before the event, this document is a live working document so please do read through this and comment. At the event please share with your Team Leader any potential risks you identify so that we can ensure the event is safe for all.

If you need further support please see the Response Team, who can be contacted by via Event Control

All team members should have one break per session (morning, afternoon and evening), and teams should take meal times on a rota to ensure that the team is covered at all times (particularly for venues).

If you feel that you need additional breaks to those in the team rota, please do speak with your Team Leader who will be able to assist and ensure you have enough breaks and support.

We are here to support each other as a team, so take time to get to know each other on the Friday before we open and keep in touch with each other during the event. We have Chaplains available for the Delivery Team throughout the weekend, who can be contacted through The Bungalow Team or Event Control.

Taking responsibility for each other

It is important that everyone takes responsibility for their own conduct, actions and general behaviour. As a member of a team, it may be necessary at times to ensure other workers' behaviour is in line with the high standards expected and to lead by example.

If any behaviour from another worker causes concern, this should be challenged in the first instance and/or reported to their team leader or to Careline.

It is important to particularly take notice of behaviours that are offensive to each other, including any form of abuse, bullying, harassment, exploitation and inappropriate use of social media.

Even if the worker is your friend or a respected colleague, it is important to remember that people need to be safe and protected.
